

Vaibhav Kumar

Data Analysis and Cyber Security Specialist

Hi, I'm Vaibhav Kumar, a driven and detail-oriented cybersecurity enthusiast with a passion for data analysis. As a B.Tech student in Computer Science with a specialization in Cyber Security and Forensic, I've developed a strong foundation in programming languages like Java, Python, and C++. With hands-on experience in tools like Nmap, Wireshark, and Burp Suite, I'm confident in my ability to identify and mitigate security threats. My experience as a project intern at IBM has given me a unique perspective on security risk management, compliance, and reporting. I'm excited to bring my skills and knowledge to a challenging role in data analysis or cybersecurity and contribute to a team that shares my passion for innovation and security.

EDUCATION

Bachelor of Technology

University of Petroleum and Energy Studies

08/2021 - 05/2025

Dehradun, India

Courses

– Cyber Security and Forensic – Percentage/CGPA :- 7.78

class 12

R.L.S.C.S.V.M.I. College Jaspur U.S.Nagar
Uattrakhand 244712

04/2019 - 03/2020

Jaspur, u.s.nagar (uattarakhand india)

Courses

– Hindi, English, Math, Physics, Chemistry – Percentage /cgpa :- 84%

Class 10

R.L.S.C.S.V.M.I. College Jaspur U.S.Nagar
Uattrakhand 244712

04/2017 - 03/2018

Jaspur, u.s.nagar (uattarakhand india)

Courses

– Hindi, Science, English, Math, Social Science, Sanskrit – Percentage/CGPA :- 86%

WORK EXPERIENCE

Security matrix and reporting/security developer

Remote/IBM

06/2024 - 07/2024

Dehradun, India

Founded in 1911, IBM is a multinational technology giant headquartered in Armonk, New York. With a presence in over 170 countries, IBM is a leading manufacturer of computer hardware, middleware, and software. The company provides a range of services, including hosting and consulting, to help businesses thrive in the digital age. As a pioneer in the tech industry, IBM has consistently innovated and adapted to emerging trends, driving progress in areas like artificial intelligence, cloud computing, and cybersecurity. With a rich history and a commitment to innovation, IBM remains a trusted partner for businesses and governments worldwide.

Achievements/Tasks

– Successfully complete the Internship / Defining security roles and responsibilities for information analysis tasks, such as running analysis jobs, viewing results, publishing analysis, and managing analysis workflows.

SKILLS

Leadership

communication skill

C++

python

Programming

OWASP

Penetration testing

SOAR

PERSONAL PROJECTS

Network traffic Analyzer (08/2023 - 12/2023)

– Developed a real-time network traffic analyzer using Python and Scapy, capable of capturing and analyzing network packets to find trends and anomalies. • Designed and implemented a graphical user interface using Matplotlib, providing an intuitive visualization of network traffic patterns and statistics. • Implemented features such as packet filtering, protocol analysis, and traffic visualization, enabling users to gain insights into network behavior and performance. • Successfully found and classified several types of network traffic, including HTTP, FTP, and DNS, and detected potential security threats and anomalies.

Anomaly Detection Technique using IDS (01/2024 - 05/2024)

– Intrusion Detection Systems (IDS) are indispensable components of network security, designed to detect and respond to unauthorized access and malicious activities. Methodologies such as packet inspection, statistical analysis, and machine learning algorithms to find potential threats. Instruction Detection Techniques: • System Call Analysis • API Call Monitoring • Opcode Analysis

CERTIFICATES

Ethical Hacking Essentials (EHE) form EC-Council
(01/2024 - Present)

Network Defense Essentials (NDE) from EC-Council
(12/2023 - Present)

fundamental of information security from Infosys
(02/2024 - Present)

introduction to cybersecurity tools and cyber-attacks from
Coursera (06/2023 - Present)
