## SUMMARY

Aspiring Software Developer and Security Analyser with experience as a Software Intern at IBM, specializing in automated security dashboards and integrating scanning tools. Proficient in real-time security analysis and incident response. Eager to contribute to enhancing security systems within a prominent organization.

## Work Experience

### IBM

Jun 2024 - Jul 2024

Software Intern

Dehradun

- Developed and implemented automated security metrics dashboards to monitor vulnerabilities, compliance, and threat trends across multiple systems.
- Streamlined the reporting process by creating custom security reports, improving visibility and decision-making for security stakeholders.

## Projects

### [Visual packet tracker](#)

Jul 2023 - Nov 2023

- Implemented packet capture and analysis features using protocols like TCP/IP and UDP to identify potential threats and performance bottlenecks.
- Optimized tool performance by integrating efficient data parsing algorithms, resulting in a 30% reduction in packet processing time.

### [Anomaly Detection](#)

Mar 2024 - Aug 2024

- Developed and implemented advanced anomaly detection algorithms for Intrusion Detection/Prevention Systems (IDS/IPS), significantly improving the identification of zero-day attacks and abnormal network behaviors.
- Enhanced the accuracy of threat detection by integrating machine learning models with IDS/IPS, reducing false positive rates by 20% and improving overall network security.

### [Sorting Visualizer](#)

Nov 2023 - Jan 2024

- Developed an interactive sorting algorithm visualizer using HTML, CSS, and JavaScript, allowing users to visually explore and compare algorithms like Quick Sort, Merge Sort, and Bubble Sort in real-time.
- Optimized the visualizer for performance and responsiveness, providing clear visual feedback on algorithm efficiency and time complexity, enhancing user understanding of sorting concepts.

## skill

- Programming Languages:** C/C++, Python, HTML, Node.js, Javascript, Mongoose
- Cybersecurity Tools (Familiarity):** Burp Suite, Nmap, Wireshark, Metasploit, PWNT00L, OWASP ZAP
- Cybersecurity Concepts:** VAPT, Malware Analysis (static and Dynamic), Threat Hunting, Cloud Security
- Penetration Testing:** Test for common network and web application vulnerabilities.

## Certification

- Prepare for the CompTia Security+ (SYO-701) Certification:** Achieved Nov 2024
- Ethical Hacking Essentials (EHE) form EC-Council:** Achieved June 2023
- Network Defense Essentials (NDE) from EC-Council:** Achieved Sep 2023
- Fundamental of information security from Infosys:** Achieved June 2024
- Introduction to cybersecurity tools and cyber-attacks from Coursera:** Achieved Aug 2024

## Education

University of Petroleum and Energy Studies, Dehradun

Aug 2021 - May 2025

Bachelor of Technology (B.Tech), Computer Science

Dehradun

- C.G.P.A : 8.125

R.L.S.C.S.V.M.I. College JASPUR, U.S.Nagar

Aug 2019 - May 2020

12th (UK Board)

Jaspur

- Percentage: 84%

R.L.S.C.S.V.M.I. College JASPUR, U.S.Nagar

Aug 2017 - May 2018

High School (UK Board)

Jaspur

- Percentage: 86%
