

BRIEF SUMMARY

Dedicated and detail-oriented student with strong academic record in Computer Science. Proficient in programming languages such as Java, Python, and C++. Excellent problem-solving skills, with experience in team projects and leadership roles. Eager to apply skills and knowledge in a dynamic and innovative work environment."

KEY EXPERTISE

network security penetration testing OWASP Communication Skill leadership java C++ WireShark Burpsuite Sn1per

EDUCATION

University of Petroleum and Energy Studies	2021 - 2025
B.Tech. - Computer Science & Engineering - School of Computer Science Percentage: 77.80 / 100	
R.L.S.C.S.V.M.I. College JASPUR UDHAM SINGH NAGAR UUTARAKHAND INDIA 244712, Jaspur	2020
12 th UBSE Percentage: 84 / 100	
R.L.S.C.S.V.M.I. College JASPUR UDHAM SINGH NAGAR UUTARAKHAND INDIA 244712, Jaspur	2018
10 th UBSE Percentage: 86 / 100	

INTERNSHIPS

IBM IT / Computers - Software Software Engineer	03 Jun, 2024 - 31 Jul, 2024
Key Skills: Security Reporting	
design a GUI of security matrix and reporting for find out the vulnerability, threat and risk on the site	

PROJECTS

Anomaly Detection techniques using Instruction detection techniques	01 Jan, 2024 - 23 May, 2024
Mentor: kaihav sinha Team Size: 4	
Key Skills: IDS IPS Network Security sniffer	
Project Link: https://github.com/C1pt2r5	
Intrusion Detection Systems (IDS) are indispensable components of network security, designed to detect and respond to unauthorized access and malicious activities. Methodologies such as packet inspection, statistical analysis, and machine learning algorithms to find potential threats. Instruction Detection Techniques: • System Call Analysis • API Call Monitoring • Opcode Analysis	
Network traffic Analyzer	23 Aug, 2023 - 27 Dec, 2023
Mentor: Vaibhav Kumar Team Size: 1	
Key Skills: Network Security Networking Snort	
Project Link: https://github.com/C1pt2r5	
Developed a real-time network traffic analyzer using Python and Scapy, capable of capturing and analyzing network packets to find trends and anomalies. • Designed and implemented a graphical user interface using Matplotlib, providing an intuitive visualization of network traffic patterns and statistics. • Implemented features such as packet filtering, protocol analysis, and traffic visualization, enabling users to gain insights into network behavior and performance. • Integrated with Wireshark to use its packet capture capabilities and enhance the analyzer's functionality.	

• Successfully found and classified several types of network traffic, including HTTP, FTP, and DNS, and detected potential security threats and anomalies.

ACHIEVEMENTS

- I have taken part in Hack on Amazon - Season 4.
- I have taken part in the Focus on Code organized by the K. Ramakrishnan College of Engineering.
- I have taken part in Capture the Flag organized by RV College of Engineering.

PERSONAL DETAILS

Gender: Male	Date of Birth: 15 Oct, 2003
Marital Status: Single	Known Languages: English , Hindi
